

## Client Cambridge Commodities

**Contractor:** Lindum Construction Ltd.

**Nature of client business:**

Cambridge Commodities Limited is located in Cambridgeshire and is a leading importer, distributor and manufacturer of high-quality nutritional raw materials and ingredients, as well as made-to-specification finished products.

**Location:** Ely, Cambridgeshire.

**Scope of job:**

Adcock was contracted by Lindum Construction to supply and install mechanical works to their office, leisure and production areas.

**What the project entailed:**

Adcock supplied and installed the following services:-

A Mitsubishi Electric R2 heat recovery system linked to Lossnay heat recovery fresh air systems, serving conditioned air to office and leisure areas. We also installed a Duntherm Air Handling Unit complete with HEPA filters and DX coils supplying conditioned air to production and packing areas.

Adcock also provided toilet and kitchen extract, sanitary ware, hot and cold water and above ground drainage (through a sub-contractor).

**Job Value:** £430k

**What Adcock brought to the job:**

Adcock has an excellent working relationship with Lindum's over the past 20 years and we were selected for this project because of our expertise and resources.

**Equipment Installed:**

Mitsubishi VRF R2 System

Lossnay heat recovery fresh air units

Duntherm Air Handling Units and Mitsubishi Electric heat pump condensing unit

Specified sanitary ware
