

Improver Service Engineer, Ilkeston, Derby

Our branch in Derby, is looking for an improver engineer to join their team. This is a new, growing branch, providing an excellent opportunity for an individual looking to grow with the branch.

The Role

- Visiting client sites to service and maintain air conditioning and refrigeration equipment.
- Working in the field attending call outs to commercial, industrial and occasional domestic clients.
- Diagnosing, fault finding and problem solving on refrigeration and air conditioning equipment in commercial, industrial and domestic sites.
- Liaising with your branch to order parts and items that are required to fix faults you have diagnosed.
- Ongoing training and development opportunities are available through our recognised training school offering City & Guilds accredited courses.

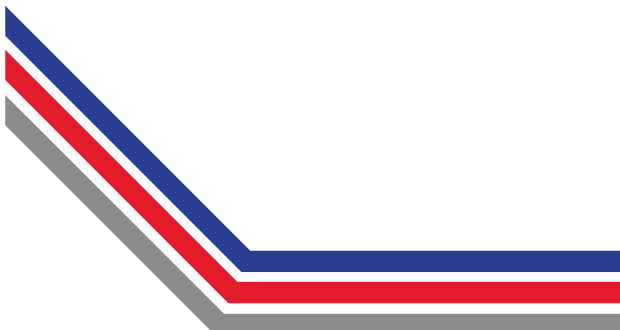

Candidate

- Must have some experience as a mobile air conditioning and refrigeration service engineer on commercial, industrial and domestic sites.
- Refrigerant handling C&G2079 is essential.
- Must show excellent organisation, communication and prioritisation skills.
- The ideal candidate will show outstanding customer service skills with the ability to translate technical jargon into understandable language for the client and provide neat detailed reports

Standard hours are 40 hours per week with the requirement. Additional income can be earned from generous overtime payments and call out rota.

To apply for this role, please complete an application form and submit it to hr@adcock.co.uk. The application form can be downloaded from the careers page of the Adcock website. **Please make sure you include the job title of the role you are applying for in the subject line of any emails that you send us.**

We are an Equal Opportunities Employer
