

Installation Engineer, Kings Lynn

We are looking for an experienced Air Conditioning and Refrigeration Installation Engineer to be based at our Kings Lynn branch.

The Role:

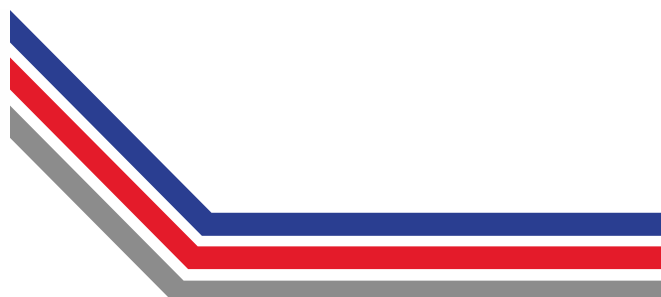

- 40 hours per week with overtime as required
- This is a mobile role which involves travelling extensively around Norfolk and occasionally other areas, visiting client sites to install and commission air conditioning and refrigeration equipment.
- There will at times be the requirement to travel further afield with occasional overnight stays.
- Liaising with the branch and the project manager to ensure that all equipment is installed to the customers specification at the highest possible quality and level of service.
- Engineers are required to cover an out-of-hours on-call service on a rota basis. All overtime during out of hours receives enhanced pay.

Candidate:

- Must have a solid, demonstrable knowledge of commercial, industrial and domestic refrigeration and air conditioning.
- Must have proven experience installing and commissioning equipment for a wide variety of commercial and industrial clients including retail, manufacturing, food production and more.
- Must have the confidence and ability to be included in the out-of-hours call-out service.
- Must hold Refrigerant handling C&G2079 or equivalent.
- A full, valid UK driving licence is essential.

To apply for this role, please complete an application form and email or post it to us. The application form can be found on the Careers page of the Adcock website.
