

Sales Engineer - Bromsgrove

Adcock Refrigeration and Air Conditioning are on the lookout for a highly skilled Sales engineer with extensive building services experience to join their successful team in Bromsgrove.

The role:

- To be actively involved in the process of business development and sales for both installation of new products and service and maintenance agreements.
- Effective customer relationship building and management;
- Establishing contact with customers, designers and contractors in order to select equipment suitable for their requirements, submit offers to trade and in the negotiation of contracts, ensuring professionalism and excellent customer service at all times.
- Liaise with engineers, sub-contractors and branch colleagues to ensure new installations are delivered to the highest standard.
- Visit sites as necessary and provide technical support where needed.

The candidate:

- Proven sales and building services project management experience on a wide range of Refrigeration and Air Conditioning systems and applications.
- Extensive knowledge and experience of working with end users, developers and fit out contractors on Cat A and Cat B Schemes would be an advantage.
- Excellent technical skills and knowledge of a wide range of air conditioning systems.
- High financial and commercial awareness with the ability to manage large budgets and resources.
- Excellent communication skills with the ability to forge strong business relationships with customers, suppliers, colleagues and contractors.
- A thorough understanding of and ability to deliver outstanding and continuous customer service.

We offer a very competitive package with a bonus structure and a company car.

To apply for this role, please complete an application form and email or post it to us. The application form can be found on the Careers page of the Adcock website.

Please remember to include the job title of the role you are applying for in the subject line of your email.
